

How can get Upgrade free memory Google colab

The memory is not enough you can buy memory or you can got free if u need just 25 GB

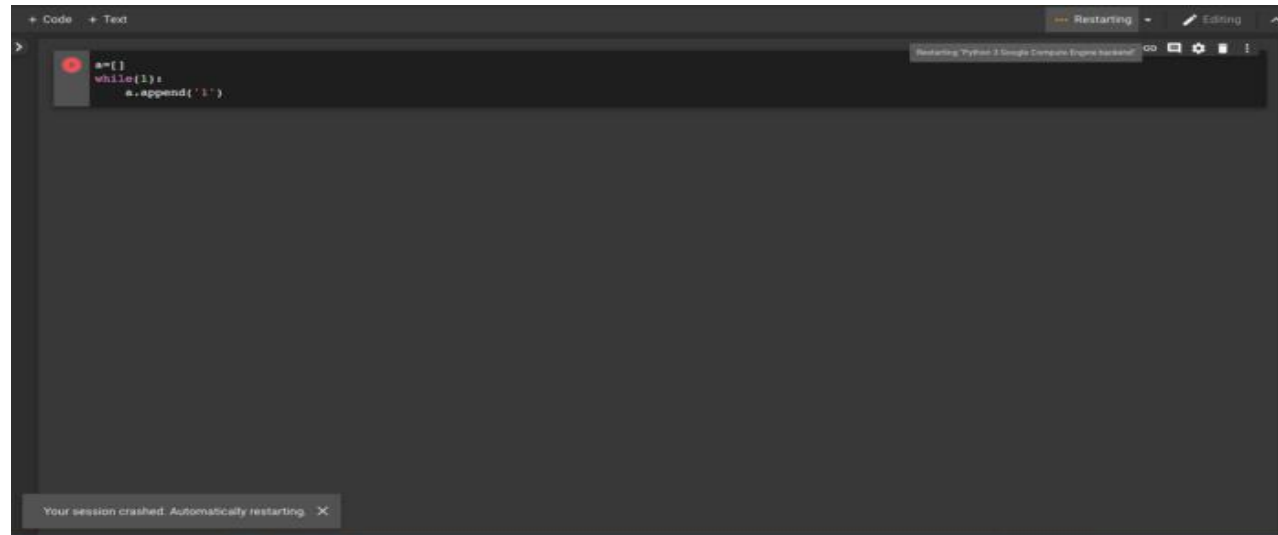

1-Open the new notebook .

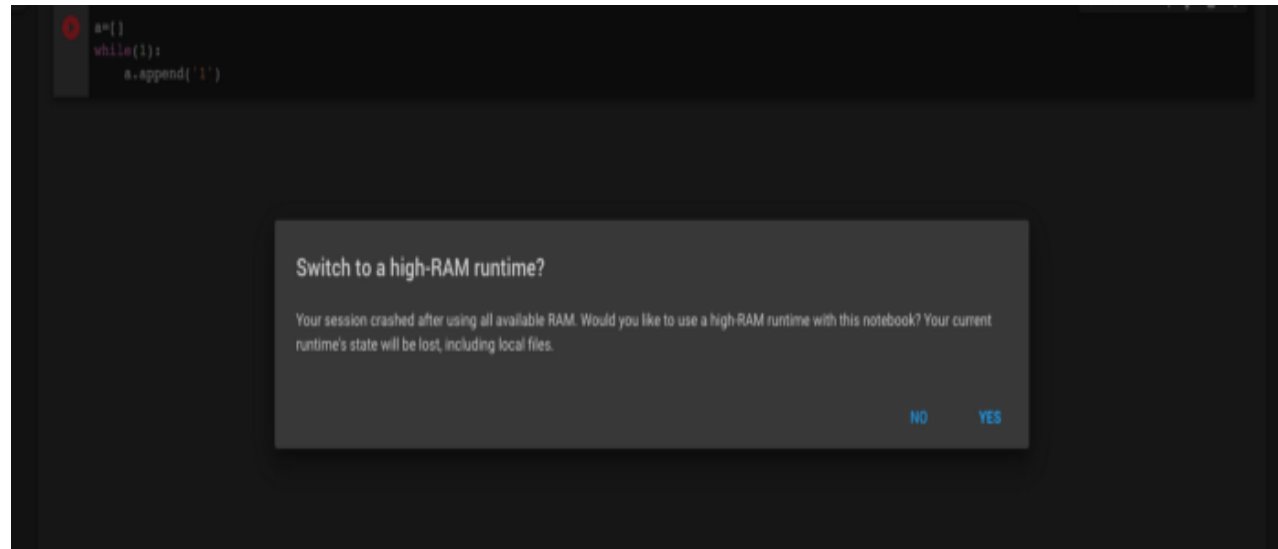

2-Check this code and run

```
i = []  
while True:  
i.append(i)
```

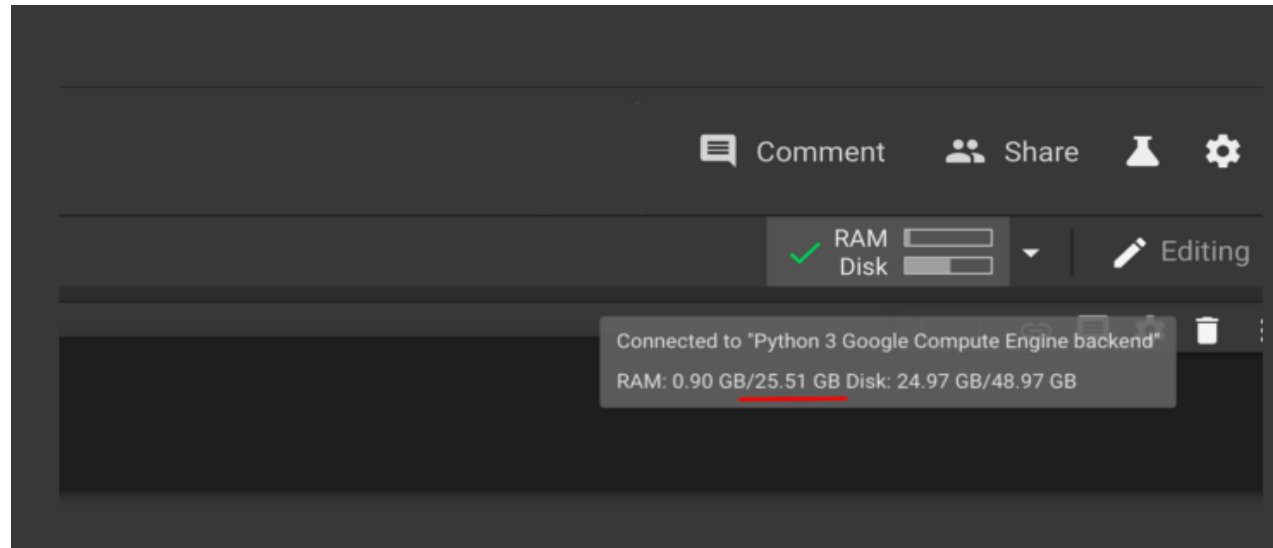

3-Wait for few minutes, after that you will get a prompt that your notebook got crashed, do you want to increase ram ?

4-In the prompt click - yes

5-As you see the ram increase from 12GB to 25GB.
